All about me! Work samples, images, resume, its all there!

More about me

I want to work for a company that...

Prides itself on providing its employees a great work-life balance.

The coolest side project I've built is...

Birdables https://birdables.com is a collection of bird collectable cards I designed

Interests

I volunteer at dog shelters alongside fostering dogs. I also produce electronic music!

At work I'm best at...

Learning how to be good at a role. I have vast experience from doing so many different aspects of engineering and design. Once I'm in a role though, I learn to specialize in what the role requires.

I'm making a career change because...

My next challenge awaits! I've gained quality experience leading Front-End Engineering and Web Design for an agency I created and managed for 7+ years. But I'm ready to join a great team/company
